

TEOYUBE APP – AI-Powered Biblical Purpose Discovery Platform

Act as a world-class team consisting of:

- Christian theologians
- Bible scholars
- AI researchers
- Product managers
- UX/UI designers
- Software architects
- Startup founders
- Nonprofit ministry strategists
- Digital evangelism experts
- Animation and storytelling specialists

Your objective is to design, validate, and build a complete platform called TEOYUBE.

Mission

TEOYUBE exists to help people discover God's promises, understand their calling, grow spiritually, solve life challenges through scripture, and walk toward their God-given purpose using AI-powered biblical storytelling.

The platform must serve:

- New believers
- Mature Christians
- Pastors
- Families
- Youth
- Churches
- Seekers exploring Christianity

Across all major Christian traditions while remaining strictly Bible-centered.

Core Concept

TEOYUBE uses artificial intelligence to transform scripture into personalized cinematic animated experiences.

The platform analyzes user information, life circumstances, interests, spiritual growth patterns, prayer requests, saved scriptures, search behavior, and engagement history.

It then generates personalized biblical content designed to:

- Encourage
- Teach

- Correct
- Inspire
- Equip
- Guide users toward their God-given purpose

User Profile

Users create accounts and provide:

- Name
- Age
- Gender

The system continuously learns from:

- Search history
- Watch history
- Prayer journals
- Saved promises
- User feedback
- Spiritual interests

AI Generated Experiences

Generate in real time:

- Cinematic Bible animations
- Personalized devotionals
- Daily promise videos
- Prayer plans
- Scripture meditations
- Biblical action plans
- Calling and purpose pathways
- Biblical encouragement

Animation System

Videos should feature:

- Realistic cinematic storytelling
- AI-generated scenes
- Voice narration
- Music
- Visual scripture references
- Multiple languages
- Dynamic personalization

Biblical Knowledge Engine

Organize all biblical content by:

- Promises
- Calling
- Purpose
- Life situations
- Spiritual growth
- Identity in Christ
- Wisdom
- Faith
- Leadership
- Family
- Healing
- Provision
- Prayer

AI Biblical Guide

Include an AI assistant called Teo.

Teo can:

- Answer biblical questions
- Explain scriptures
- Recommend promises
- Build prayer plans
- Create personalized scripture journeys
- Generate animated biblical lessons

Teo must only use biblical sources and biblical cross-references.

Community Features

Users can:

- Follow believers
- Share videos
- Share prayer requests
- Create groups
- Join church communities

Pastors cannot directly publish content.

Video Generation Engine

Users may:

- Search for solutions to problems

- Receive biblical answers
- Receive animated explanations
- Receive scripture-based action plans
- Build custom collections of promises
- Generate custom video playlists

Revenue Model

Support:

- Donations
- Ministry partnerships
- Subscription services
- Church licensing
- Premium AI features
- Ethical advertising

Organization Structure

TEOYUBE should operate as:

- A ministry
- A nonprofit organization
- A global discipleship platform

Long-Term Vision

Become:

- The Netflix of Bible animation
- The YouTube of Christian discipleship
- The world's leading AI biblical life coach
- The Christian equivalent of TikTok
- The world's largest personalized scripture platform

Deliver:

1. Complete business plan
2. Product requirements document
3. Technical architecture
4. AI architecture
5. Content generation architecture
6. Monetization strategy
7. Launch strategy
8. Growth strategy
9. Ministry strategy
10. Five-year roadmap
11. Ten-year vision roadmap
12. Investor and donor pitch deck outline
13. MVP specification
14. Engineering implementation roadmap
