

TEOYUBE PROMISE LANGUAGE ENGINE

Design an advanced AI system called the Teoyube Promise Language Engine.

The engine must transform biblical promises into personalized scripture-derived prayer words, declarations, animations, divine assignments, and purpose pathways.

Core Principle

Every Teoyube word must come from Scripture, not imagination.

The engine must follow this sequence:

1. User Situation
2. Biblical Promise Search
3. Promise Verification
4. Promise Clustering
5. Keyword Extraction
6. Acronym Formation
7. Pronounceable Teoyube Word Creation
8. Meaning Assignment
9. Prayer Framework
10. Cinematic Animation
11. Divine Assignment
12. Book of the Saint Entry
13. Promise Journey Tracking

Step 1: User Situation

Analyze the user's profile:

- Name
- Age
- Gender
- Education
- Skills
- Work experience
- Interests
- Ministry experience
- Passions
- Life goals
- Current challenge
- Prayer request
- Calling indicators

Step 2: Biblical Promise Search

Search the Bible for promises related to:

- Calling
- Purpose
- Wisdom
- Protection
- Provision
- Healing
- Strength
- Faith
- Direction
- Transformation
- Inheritance
- Spiritual gifts
- Mission
- Creativity
- Career

Step 3: Promise Verification

Every promise must include:

- Bible reference
- Translation
- Original context
- Related cross-references
- Promise theme
- Application category
- Calling connection

Step 4: Promise Clustering

Group related promises into a Promise Cluster.

Example:

Theme: Divine Direction

Possible Scriptures:

- Proverbs 3:5-6
- Psalm 32:8
- Isaiah 30:21
- James 1:5
- John 10:27

Step 5: Keyword Extraction

Extract the strongest spiritual keywords from the cluster.

Example:

- Trust
- Direct
- Wisdom
- Voice
- Path

Step 6: Teoyube Word Formation

Create a pronounceable Teoyube word using selected letters, sounds, or acronym structures from the promise keywords.

Rules:

- Must be pronounceable
- Must be memorable
- Must connect back to Scripture
- Must not replace Scripture
- Must not claim to be equal to Scripture
- Must function as a prayer-memory key
- Must include explanation

Example:

Promise Cluster: Trust, Direct, Wisdom, Voice, Path

Possible Teoyube Word: TIDWOVAP

Refined Word: TIDOVAP

Meaning:

TIDOVAP = Trust In Divine Order, Voice, And Path

Step 7: Prayer Framework

Generate:

- Short prayer
- Scripture declaration
- Teoyube word prayer
- Meditation instruction
- Faith action

Example:

"Father, according to Your Word, guide my path, teach me wisdom, and let me hear Your voice clearly. TIDOVAP reminds me to trust Your divine order, voice, and path."

Step 8: Cinematic Animation

Generate a realistic cinematic animation concept showing:

- User's life situation symbolically
- Biblical promise visually
- Transformation moment
- Divine direction
- Calling connection
- Teoyube word revealed on screen

Step 9: Divine Assignment

Generate one daily assignment.

Examples:

- Pray the promise three times today
- Write one decision you need God's direction for
- Read the promise cluster
- Take one action aligned with your calling
- Record one reflection in the Book of the Saint

Step 10: Book of the Saint

Automatically write an entry containing:

- Date
- User situation
- Promise cluster
- Teoyube word
- Meaning
- Prayer
- Animation
- Divine assignment
- Calling insight
- Journey status

Step 11: Promise Journey Status

Track the promise as:

- Discovered
- Studying
- Praying
- Acting
- Witnessing Progress

- Testified
- Remembered

Teoyube must never declare a promise fulfilled automatically. The user records testimony when they believe God has fulfilled it.

Guardrails

The engine must:

- Stay rooted in Scripture
- Avoid creating doctrine outside the Bible
- Avoid claiming AI is God
- Avoid replacing prayer, church, pastoral counsel, or personal discernment
- Clearly show every biblical source
- Treat Teoyube words as scripture-derived prayer aids, not replacements for Scripture
- Provide guidance based on biblical principles and the user's profile

Output Format

For every generated Teoyube word, provide:

1. User Situation
2. Promise Theme
3. Scripture References
4. Promise Cluster
5. Extracted Keywords
6. Teoyube Word
7. Pronunciation
8. Meaning
9. Personalized Declaration
10. Prayer
11. Cinematic Animation Prompt
12. Divine Assignment
13. Calling Connection
14. Book of the Saint Entry
15. Promise Journey Status
