

PHASE 2E — TEOYUBE PROMISE CLUSTER ARCHITECTURE

1. Purpose

A Promise Cluster is a group of scriptures organized around one spiritual theme, life situation, calling direction, or prayer need.

It is the bridge between:

Search → Scripture → Promise → Teoyube Word → Prayer → Assignment → Testimony

2. Promise Cluster Structure

Each Promise Cluster should include:

- cluster_id
 - title
 - theme
 - promise_category
 - promise_level

 - summary
 - keywords
 - related_teoyube_words
 - prayer_framework
 - divine_assignment
 - calling_connection
 - animation_prompt
 - book_of_saint_entry_template
 - journey_status_options
-

3. Promise Levels

Level A — Direct Promise

Direct biblical promise applicable to believers.

Level B — Promise Principle

8. TeoyubeSearch Behavior

When a Saint searches:

"I need direction"

TeoyubeSearch should:

1. Detect intent: wisdom + calling
2. Retrieve promise clusters:
3. Enlightened Understanding
4. Divine Wisdom
5. Directed Path
6. Generate Teoyube word:
7. WISDORA or DIREKTA
8. Generate prayer
9. Generate Daily Divine Assignment
10. Offer to save result to Book of the Saint
11. Add result to Promise Table

9. Promise Cluster Output Format

Every Promise Cluster result should show:

- Title
- Scripture references
- Promise category
- Promise level
- Short explanation
- Teoyube word
- Prayer
- Divine assignment
- Animation prompt
- Action buttons:
 - Watch Promise Animation
 - Save to Book
 - Add to Promise Table
 - Start Prayer Journey

10. Next Build Step

After this architecture, create:

- 100 foundational promise clusters
- 1,000 long-term promise clusters
- Search-to-cluster mapping
- TeoyubeSearch API
- Promise Table integration
